PRESS RELEASE

ASI Recognized as I-CAR Gold Class Business

Only 10 percent of collision industry currently meet the rigorous training requirements necessary to earn the Gold Class designation

Conyers, GA August 8, 2016:

Audit Services Incorporated (ASI) proudly announced today its achievement of I-CAR Gold Class business status, the highest recognition for training available in the collision repair industry.

"The I-CAR Gold Class designation provides our clients with confidence that ASI is committed to ensuring our employees achieve the highest level of training available. It is a symbol of our commitment to provide distinctive quality and unparalleled customer service" said John Hall, President of ASI.

Today's vehicles are increasingly more sophisticated featuring an ever-growing number of components, parts and advanced lightweight materials. The constant introduction of new vehicle technologies can result in repair procedures changing significantly from year to year, making current repair knowledge critical for the achievement of complete, accurate estimating and quality repairs.

"We are honored to be named a Gold Class business," said Hall. "ASI is committed to providing best-in-class services, while ensuring compliance to industry standards, best practices, an accurate estimate and ultimately safe vehicle repairs."

About I-CAR

I-CAR, the Inter-Industry Conference on Auto Collision Repair, is an international not-for-profit organization dedicated to providing the information, knowledge and skills required to perform complete, safe and quality repairs. For more information, visit <https://www.i-car.com>
