

Free Lunch Included! You Are Invited!

Attend our WRT Class on
"Water Restoration Technician" IICRC Training
sponsored by
Rainbow International
Restoration and Cleaning® and ASI.

Water Restoration Technician IICRC Training:

Rainbow International and ASI have partnered to offer "Water Restoration Technician" IICRC Training classes for property adjusters. Rainbow International and ASI will share their values and training expertise to the attendees.

After the course, the attendee will be up-to-date on the current best practices and equipment available to our industry. These are not just Rainbow/ASI standards but industry standard that have been established and communicated through the IICRC S500 (standard of care for the water damage professional Manual) and teaching techniques of IICRC approved instructors.

What you will learn:

- Overview of the current best practices and equipment available to our industry
- Extensive training ensures quality results become IICRC Certified.
- IICRC S500 Industry standards
- Teaching techniques of IICRC
